

MOHAMED, Emad. *Ara'aytum*: the exegetical implications of a Qur'anic stance marker. *Al-Bayan: Journal of Qur'an and Hadith Studies*, 15 ü (2017) pp. 170-192. "While the analysis provided in this article is mainly linguistic, the findings will affect the way we read the Arabic-Islamic heritage, especially as regards the authenticity of what are known as the Satanic Verses, also known as the episode of the High-Flying Cranes (*Qiṣṣat al-ġarānīq*)."

550 AHMED, Shahab. *Before orthodoxy: the Satanic verses in early Islam*. Cambridge (MA): Harvard University Press, 2017. 352 pp. Studies the attitudes of early Muslims, circa 632 to 800 CE, to the Satanic verses and shows that for them these praises to the pagan deities were widely accepted as an established fact in the biography of the Prophet.
